Prague Hilsides

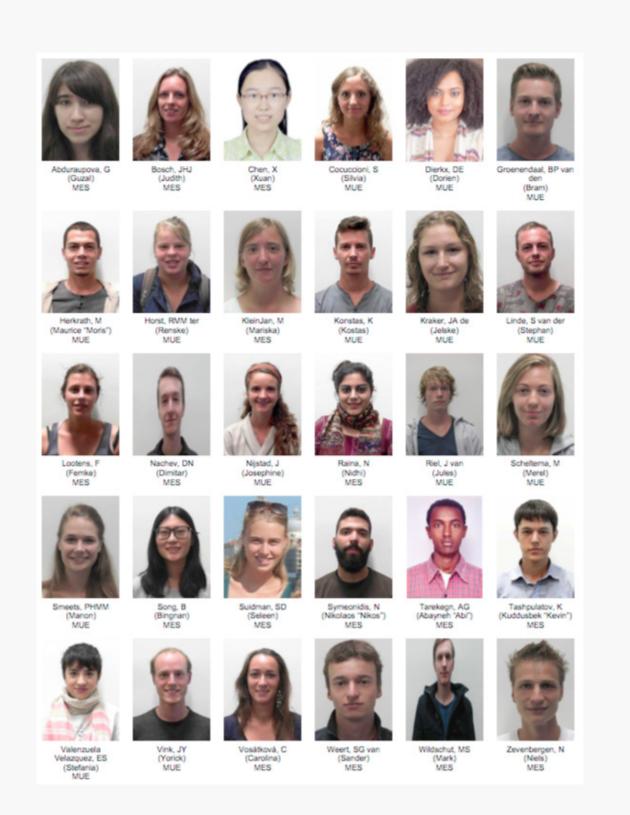

Organisation Methodology Who are we

- A group of 30 people with a composition reflecting diversity.
- Our strength is to be multinational and multicultural
- Different nationalities and cultures
- Different ages and experiences
- Our strength is to be transdisciplinary and multidisciplinary
- Our Goal
- Improve the quality of life for the Citizens of Prague
- Our Purpose
- Define opportunities for current and future functions of Prague's hillsides
- Our Outputs

- Wageningen University is 47th in international University ranking
- Renowned for it's expertise in environmental sciences [4th in international ranking]
- The European Workshop, what (is it) and how (does it work)?
- A workshop in a group of 30 people that addresses an actual issue in consultancy to a Client [So far there is a history of successful and fruitful project carried out by the WUR EUW]
- The Workshop lasts 8 weeks

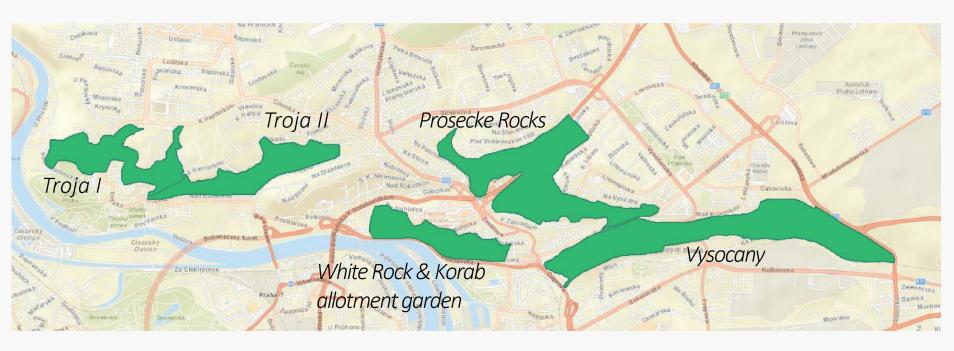

- Different backgrounds and bachelor studies + some with work experience
- Different Master programs, mostly Urban Environmental Management and Environmental Sciences. Within those programs we have different specialisations/tracks
- We operate in multiple groups simultaneously:
- 5 Geo groups, one for each hillside [map]
 - Troja I

.

.

- Troja II
- White Rock and Korab allotment garden
- Prosecke Rocks
- · Vysocany

5 Expert groups, one for each topic

- Policy and Stakeholder Analysis
- Green Infrastructure: Physical and Ecological Analysis
- Green Infrastructure: Management Practice and Use Analysis

- Public Perception Analysis
- Scenario Development
- A Management Team consisting of 5 persons to coordinate the work
- Matrix with the organisation of all three (from ToR) .
- Further we have many more groups and teams: .
 - A Logistics Team for organisational matters during the fieldwork
 - · Ad-hoc groups and other teams which are formed whenever necessary and useful (e.g. presentations, posters, editing, etc.)

• Finally we produce one synthesis report and an additional product for our Client

Topic related

One extensive report for IPR

Topic specific

One adapted, simplified and informational report oriented towards the general public

Questionnaires	Observations	Interviews
 We have two-sided Czech and English Questionnaire with 33 questions We want to gain insights into the public perception related to the issues of the hillsides and their use 	 We want to obtain objective and subjective notes at the same time We do field observations and fill in descriptive notes to a frame. Then we add on our own interpretations and impression about the area. 	 We carried out numerous interesting and informative interviews with a range of stakeholders involved in the area and the City Planning Experts Public and private stakeholders Area specific
